

# Bright Shipping

AI-Driven Parcel and  
Shipping Management

Experience the synergy of cutting-edge shipping management seamlessly blended with a robust WMS platform.

## Bright Shipping

Unleash a competitive edge:  
Shipping Cost Optimization  
for Ecommerce & DTC

The ability to deliver ecommerce and [direct-to-consumer](#) (DTC) orders quickly, efficiently, and cost-effectively is more than a competitive edge—it's a necessity.

Bright Shipping redefines the shipping process, offering enterprise-grade solutions that cater to businesses of all sizes. With rising delivery, fuel, and labor costs, Bright Shipping's innovative approach to shipping cost optimization and carrier management answers the industry's call for affordability and efficiency.

Slash shipping costs. Enhance capacity, and ensure you're always prepared for peak seasons, promotions, and new product launches. Ensure your operations are lean and robust with the power to optimize inventory, warehouse management, order management, advanced [rate shopping](#), [parcel consolidation](#), and [cartonization](#) all in one system. A powerhouse of efficiency and savings.

## Save up to 20% on Shipping

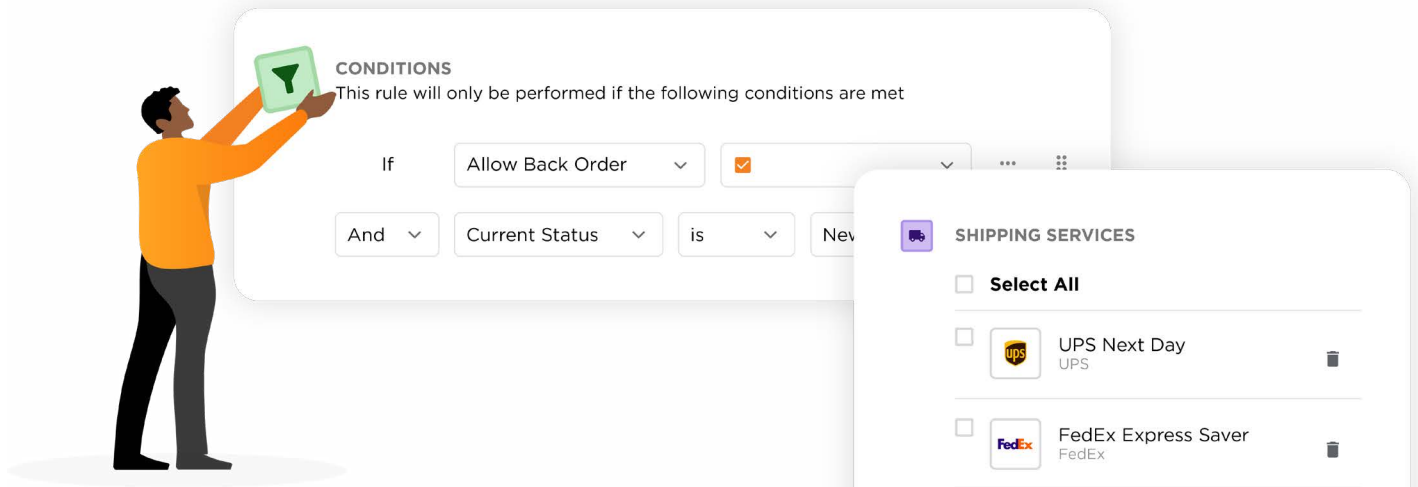

- ✓ **AI-driven rate shopping**  
secure the lowest shipping rates on every order, saving up to 20% on shipping in just a few clicks.
- ✓ **Fewer, smarter shipments**  
Automatically merge orders where possible, optimizing packing space and improving the customer experience cheaper.
- ✓ **Pack orders efficiently**  
Minimize wasted space, reducing shipping costs and packing materials by up to 25% with our intelligent carton optimization.

RATE SELECTION METHOD

Select cheapest shipping method ▾

Select how this rule will prioritize shipping services
