Optimize Your Shipping Costs

Rate Shopping provides real-time data on shipping rates from multiple carriers. Leveraging AI, our system chooses the most cost-effective and efficient options to simplify a variety of shipping needs.

Rate Shopping

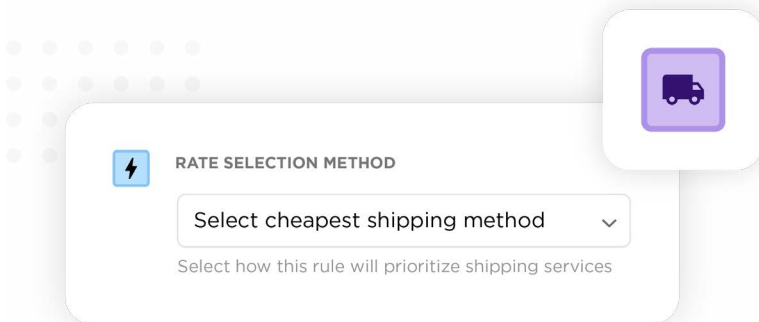

Optimize Your Shipping Costs

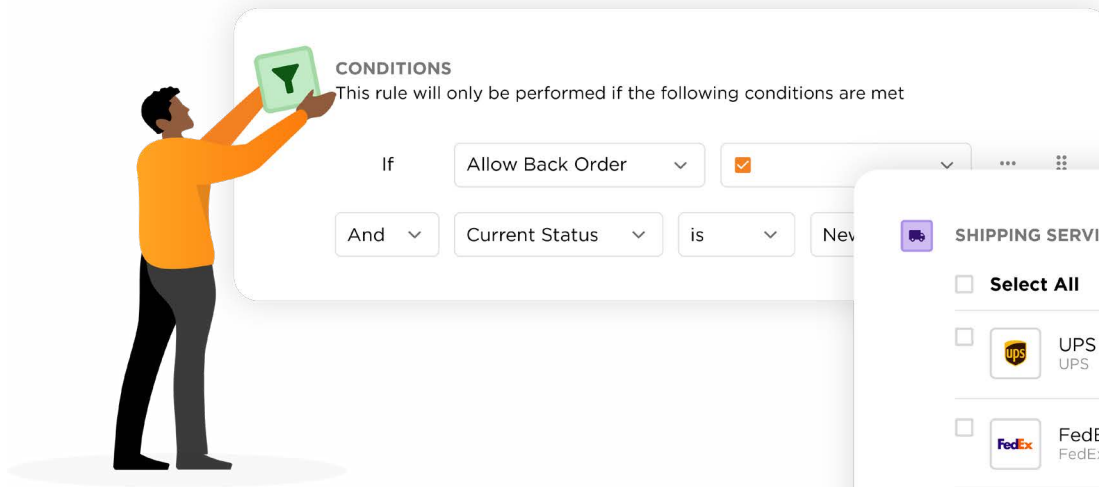

Reduce your shipping costs and improve your shipping capacity with Deposco's advanced Rate Shopping solution. Leveraging AI-enhanced technologies, Rate Shopping dynamically selects the best shipping option on every order, driving an additional 20% savings potential over traditional or rules-based methods.

Shift from Cost Center to a Value Driver

Inflation, fuel, and labor costs have a significant impact on shipping, which is today's #1 fulfillment challenge, according to an [omnichannel report](#) by Retail Touchpoints. Shipping is the highest operational cost outside of labor, which means brands, retailers, and 3PLs must become more efficient, flexible, and accurate in their shipping decisions.
