Supply Chain Trends Limiting Growth

Modernizing order fulfillment processes with WMS software is the smartest growth investment a company can make right now.

Chaotic fluctuations in supply and demand, continued labor challenges, and last-mile fulfillment congestion have forced many operational ‘blind spots’ on warehouses that were not initially set up for ‘boundaryless’ commerce.

Now is the time to invest in WMS software that can do more, faster, better and smarter.

Modernizing order fulfillment processes with WMS software is the smartest growth investment a company can make right now.

Chaotic fluctuations in supply and demand, continued labor challenges, and last-mile fulfillment congestion have forced many operational ‘blind spots’ on warehouses that were not initially set up for ‘boundaryless’ commerce.

Now is the time to invest in WMS software that can do more, faster, better and smarter.

Slow, Siloed or State Inventory Data

40% of companies will implement full-feature/best-of-breed WMS systems by 2024 to fix problems across a number of areas that directly impact growth.

Perfect Execution is Now Expected (But Rewarding!)

89% of customers say that augmenting workers with tech is the best way to introduce automation in the warehouse.

Logistics Challenges & Growing Pains

823B is the estimated number of orders that will be picked and packed in 2024.

WMS Software Tech, Automation and Robotics

4M of companies will use modern WMS systems for labor planning and management by 2024.

WMS Software for Modern Fulfillment: A No-Brainer

It’s Grow Time™ Give your staff what they need to execute on that growth. This eBook offers 7 must-have strategies to get your warehouse ready to fulfill more orders faster, better and smarter.
